■ OPITO *Certificate

Being authorized by the on-site audit and documentary examinations on the Quality Control System of the training, the training facilities/equipment and the competence of the instructors, NSTC has obtained approval of OPITO in November, 2011.

*OPITO: An organization which was established by the Oil & Gas Industry in the UK, committed to provide standards in work safety and the training to ensure the survival skills in the Offshore industry workforce. The validity of these standards are highly regarded not only in the UK, but worldwide. The requirements to complete the OPITO Approved Training when engaged in offshore marine resources industry are increasing internationally.

■ ISO14001Certificate

In March of 2012, NSTC has acquired ISO14001 certification, having been given credit for its continual improvement through PCDA cycle system which extract/assess/identify the aspects of the environmental impact to protect the environment, to prevent pollution and to improve the environmental performance.
