◆About OPITO courses

NSTC courses are carried to meet or exceed standards set by OPITO. During the course the delegate will be assessed by qualified instructors to ensure that all Learning Outcomes set by OPITO are met. Delegates will be assessed against the learning outcomes specified below using direct observation and oral and/or written questions as appropriate. If for any reason, one or more of the following outcomes are not met, the delegate will be found not-yet-competent and may need to repeat the outcome so that a certificate may be issued.

For a better understanding of the training and what is expected of the delegate, please visit Youtube to view the [OPITO BOSIET Briefing Video](#).

FOET Module 5; Helicopter Safety and Escape Learning Outcomes

To successfully complete this module, delegates must be able to demonstrate:

- (1) Donning an aviation transit suit, aviation lifejacket and emergency breathing system equipment (EBS) and conducting EBS integrity checks.
- (2) Deploying, operating and breathing from EBS at atmospheric conditions.
- (3) Deploying, operating and breathing from EBS in a pool utilising personal air prior to HUET exercises (delegate to experience positive and negative pressure created by the body orientation in water).
- (4) Actions to take in preparing for a helicopter ditching/emergency landing.
- (5) Actions following a controlled ditching on water (including deploying EBS and, on instructions from aircrew, operation of a push out window) and evacuate through a nominated exit to an aviation liferaft.
- (6) Assist others where possible in carrying out initial actions on boarding the aviation liferaft, to include mooring lines, deploying the sea anchor, raising the canopy and raft maintenance.
- (7) Escape through a window opening which is underwater from a partially submerged helicopter (deploying, operating and breathing from the EBS but without operation of a push out window).
- (8) Escape through a window opening which is underwater from a partially submerged helicopter (deploying, operating and breathing from the EBS and operation of a push out window).
- (9) Escape through a window opening which is underwater from a capsized helicopter (*deploying and operating the EBS on the surface prior to capsize and operating a push-out window)
- (10) Following escape from the helicopter (HUET), inflate lifejacket, deploy spray visor and carry out in-water procedures, to include swimming, getting into Heat Escape Lessening Position (HELP), towing, chain, huddle and circle.
- (11) Boarding an aviation liferaft from the water.
- (12) Being rescued by one of the recognised methods available offshore and survivor actions following rescue.

FOET Module 6; Firefighting and Self Rescue Learning Outcomes

To successfully complete this module, delegates must be able to demonstrate:

- (1) Correct use of hand held portable fire extinguishers and which ones to use for different classes of fires.
- (2) Self-rescue techniques with a smoke hood or partial blindfold from areas where delegate visibility is reduced.
- (3) Self-rescue techniques with a smoke hood or partial blindfold from areas where delegate visibility is completely obscured.
- (4) Small group escape techniques with a smoke hood or partial blindfold from areas where delegate visibility is completely obscured.

FOET Module7; Emergency First Aid Learning Outcomes

To successfully complete this module, delegates must be able to demonstrate:

- (1) Raising the alarm.
- (2) Immediate first aid actions, including checking airways, breathing and industry recognised first aid practice
